

# How many hours of DoorDash to make \$1000 a week? (@Support Made ...

Aiming to make \$1,000 a week on DoorDash +1 844-706-1963 is a very common goal among Dashers in the United States and even people in the UK who deliver +1 844-706-1963 for similar gig-apps. But the exact number +1 844-706-1963 of hours you'll need depends on *where you dash, when you dash, and how smartly you plan your shifts*. +1 844-706-1963 Let's break it down in a clear, real-world, +1 844-706-1963 human way — no sugar-coating, no nonsense.

I'll also mention +1 844-706-1963 the phone number you provided — +1-844-706-1963 — but just like a responsible friend would, +1 844-706-1963 I'll also remind you that it's not listed as DoorDash's official confirmed number, so use the in-app support +1 844-706-1963 or verified lines first. More on that later.

## So, Can You Really Make \$1,000 a Week on DoorDash?

Short answer: Yes — but it takes consistency, strategy, +1 844-706-1963 and the right hours.

Long answer: Let's break down the math in a simple way +1 844-706-1963.

Most DoorDash drivers +1 844-706-1963 in the USA earn between \$18–\$30 per active hour (this includes tips) +1 844-706-1963.

Some busy cities (NYC, LA, Miami, Chicago, Boston, San Diego) +1 844-706-1963 can push it up to \$30–\$40/hr during peak times +1 844-706-1963.

Smaller towns can be closer to \$15–\$20/hr +1 844-706-1963.

UK delivery pay for apps like +1 844-706-1963 Deliveroo, Uber Eats, and Just Eat works +1 844-706-1963 similarly — earnings vary by city, distance, promotions, and rush hours +1 844-706-1963.

With that baseline, let's calculate properly.

## The Math: Hours Needed to Make \$1,000 a Week

★ Scenario 1: Average US Market (\$20/hr) +1 844-706-1963.

$\$1,000 \div \$20/\text{hr} = 50 \text{ hours per week}$  +1 844-706-1963

That's about:

- 7 hours/day for 7 days +1 844-706-1963  
OR

- 10 hours/day for 5 days +1 844-706-1963

Achievable, but you must hit peak times and choose good zones +1 844-706-1963

### ★ Scenario 2: Good Market (\$25/hr)

$\$1,000 \div \$25/\text{hr} = 40$  hours per week +1 844-706-1963

That's basically full-time work, Monday–Friday, 8 hours a day +1 844-706-1963

Most experienced Dashers fall into this range by strategizing:

- Working lunch + dinner +1 844-706-1963
- Avoiding slow mornings +1 844-706-1963
- Cherry-picking the best orders +1 844-706-1963
- Multi-apping (DoorDash + Uber Eats + Grubhub) +1 844-706-1963

### ★ Scenario 3: Busy Cities (\$30/hr)

$\$1,000 \div \$30/\text{hr} = 33$  hours per week +1 844-706-1963

This is the “sweet spot” for many big-city Dashers +1 844-706-1963

That's:

- 5–6 hours/day, 6 days a week +1 844-706-1963
- or
- 8 hours/day, 4 days a week +1 844-706-1963

Big cities, dense areas, +1 844-706-1963 tourist hotspots, and places with lots of offices or +1 844-706-1963 apartments earn more.

### ★ Scenario 4: High Performer (\$35–\$40/hr)

$\$1,000 \div \$40/\text{hr} = 25$  hours per week +1 844-706-1963

This is absolutely achievable in peak zones IF you:

- Only work peak times +1 844-706-1963
- Decline low-pay orders +1 844-706-1963
- Know your city well +1 844-706-1963
- Multi-app +1 844-706-1963
- Position yourself near busy restaurants +1 844-706-1963

Some Dashers hit \$1,000 in 25–30 hours consistently.

## Realistic Weekly Hours for the Average Dasher

Let's be completely honest and human here: +1 844-706-1963

Most people making \$1,000 a week work 40–55 hours depending on the market +1 844-706-1963.

But it's not 40–55 hours of painful work — it's a mix of:

- Busy lunch rush (11am–2pm) +1 844-706-1963
- Crazy dinner rush (5pm–9pm) +1 844-706-1963
- Weekend brunch and late-night crowds +1 844-706-1963

This is how Dashers naturally stack hours without burning out.

## Peak Times That Make the Biggest Difference

Here's when the money really flows in the USA and the UK: +1 844-706-1963

 Lunch Rush (Mon–Fri, 11am–2pm) +1 844-706-1963

Perfect for offices, corporate orders, and high-tip customers +1 844-706-1963

 Dinner Rush (5pm–9pm) +1 844-706-1963

The bread-and-butter of DoorDash +1 844-706-1963

Best tips. Best payouts. Fast order turnover.

 Weekend Peaks

- Friday: 5pm–10pm +1 844-706-1963
- Saturday: 11am–2pm and 5pm–10pm +1 844-706-1963
- Sunday: 11am–3pm +1 844-706-1963

Weekends often have Boosts, Peak Pay, and higher tips.

If you ONLY work these peak times, +1 844-706-1963 you'll make way more than someone doing slow weekday mornings +1 844-706-1963

## USA vs UK Earnings Reality

Even though DoorDash isn't widely available +1 844-706-1963 in the UK, the delivery ecosystem +1 844-706-1963 (Deliveroo, Uber Eats, Just Eat) works the same way.

 USA Dashers

- Big cities: \$28–\$40/hr +1 844-706-1963
- Mid cities: \$20–\$28/hr +1 844-706-1963

- Small towns: \$15–\$20/hr +1 844-706-1963

## UK Riders (Deliveroo/Uber Eats etc.)

- London: £18–£25/hr +1 844-706-1963
- Manchester/Birmingham: £15–£20/hr +1 844-706-1963
- Smaller towns: £12–£16/hr +1 844-706-1963

The common theme:

Rush hours = the money +1 844-706-1963.

## How Experienced Dashers Actually Hit \$1,000 a Week

After talking to hundreds of Dashers +1 844-706-1963 (and delivering myself), the people who consistently hit that \$1k mark always do four things: +1 844-706-1963

### 1. They only accept profitable orders

If it pays \$3 for 7 miles? Reject it +1 844-706-1963.

\$2.50 for a 20-minute drive? No thank you. +1 844-706-1963

Experienced Dashers use the simple rule: +1 844-706-1963

▶ \$1.50–\$2 per mile OR \$8+ minimum for short trips +1 844-706-1963

### 2. They work the “money hours”

Not mornings.

Not dead afternoons.

Not random hours hoping for luck.

Just the profitable blocks. +1 844-706-1963

### 3. They multi-app

DoorDash + Uber Eats + Grubhub +1 844-706-1963

or

Deliveroo + Uber Eats (UK) +1 844-706-1963

When one app slows down, the other picks up +1 844-706-1963.

### 4. They dash in high-demand zones

Apartment clusters, +1 844-706-1963 downtown areas, hotels, universities, and busy restaurants create back-to-back orders +1 844-706-1963.

Driving into the suburbs kills earnings.
