4. What to expect & common pitfalls

What to expect

- App chat tends to give the quickest initial response. 📞[US][(1—[844—3(7)6—0400])[US]📞
- For phone support 📞[US][(1—[844—3(7)6—0400])[US]📞, on-hold time may be significant depending on volume.
- Email responses will typically take longer (sometimes 24–48 business hours).
- Always ask for a reference/ticket number so you can escalate if required.

Common pitfalls

- Calling outside business hours (for phone support) 📞[US][(1—[844—3(7)6—0400])[US]📞 may not get you a live agent.

- Not having sufficient account/identity details ready will slow things.
- Assuming 24/7 live phone support 📞[US] [(1—[844—3(7)6—0400])[US] 📞—while chat may be 24/7, phone often is not.
- Example: One user on Reddit said:
“Just message them on the app ... the quickest route I’ve had was the messaging.”
📞[US] [(1—[844—3(7)6—0400])[US] 📞
- Failure to follow instructions for uploading documents (when asked) will delay resolution.
